SPACE DOGS

SPOT THE DIFFERENCES

CAN YOU SPOT THE 11 DIFFERENCES BETWEEN THE PHOTOS BELOW?

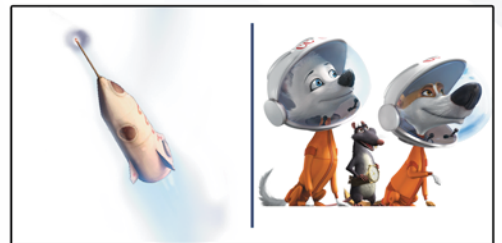

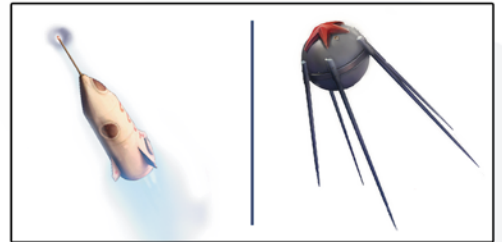

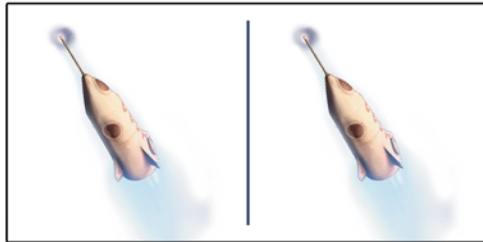

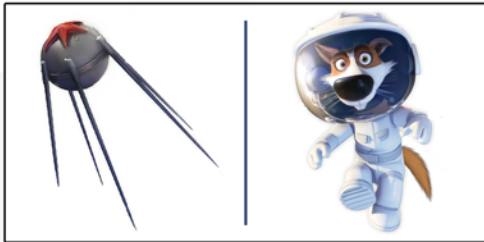

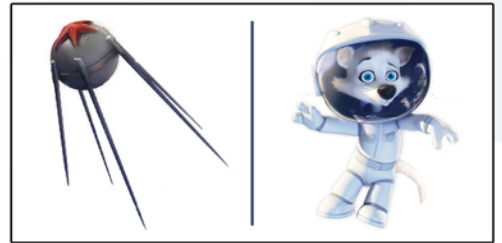

SPACE DOGS

INSTRUCTIONS

1. Have an adult help cut out the dominoes
2. Mix up the dominoes and place them face down
3. Each player takes 4 dominoes from the pile, don't show them to anyone!
4. Youngest goes first and lays down a domino. The next person has to lay down a domino with a picture that matches one that's already there. If a player can't go they pick up from the pile and miss their turn.
5. Play until all the dominos are gone

SOLAR SYSTEM PAPER MOBILE

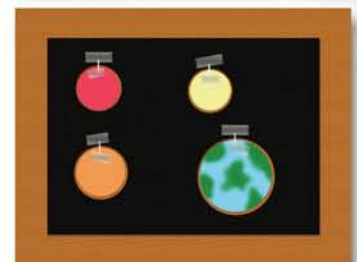

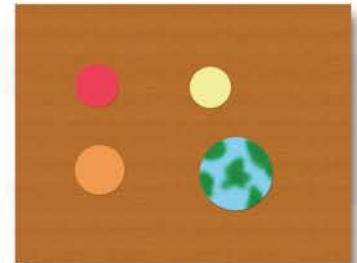

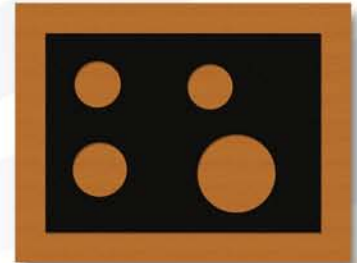

BUILD YOUR OWN SOLAR SYSTEM COMPLETE WITH SPACE DOGS!

HERE'S WHAT YOU'LL NEED...

- **CONSTRUCTION PAPER**
- **SCOTCH TAPE**
- **SCISSORS**
- **FISHING LINE** (STRING WILL WORK)
- **YARN OR STRING**
- **STAR STICKERS**
(OR WHITE CRAYON TO DRAW THEM ON)
- **STRAW**

HERE'S HOW YOU MAKE IT...

1. Cut a piece of black construction paper in half (you can make yours bigger if you want). Cut out small circles in your black paper - we used various-sized spice containers to trace around.
3. Cut planets from other colored paper. Make the planets smaller than the holes you cut in your black paper. We used blue paper and a green marker to make the earth - be creative, leave your planets plain or color them with markers or glitter!
4. Attach your planets to the center of holes with scotch tape and fishing line (monofilament). The easiest way is to place the planet in the hole, put your line in place and place a small piece of tape at each end.
5. Stick on stars (or draw them on with white crayon) and punch/cut two holes at the top. Thread a string through the holes to hang your mobile. Construction paper is thin, so to keep the mobile from buckling we used scotch tape to hold a straw above the mobile.

GAMES & GROUP ACTIVITIES

SPACE TRAINING BOOT CAMP

Objective: Make the Space Team by completing the course in the fastest time!

Choose from the activities below to create your own Space Training Boot Camp. You can time each player individually or make two identical courses and have two teams compete.

Boot Camp Activities:

- **Hula Hoop:** Players must successfully swing the hula hoop around their waist 3 times before moving on
- **Book Balance:** Players must balance a book on their head while circling a chair 3 times
- **Potato Sack:** Players must hop in a potato sack or pillow case from one destination to another
- **Complete 10 jumping jacks and 5 pushups**
- **Crabwalk** through a hula hoop ring
- **Throw beanbags** into a basket
- **Egg Balance:** Walk while balancing an egg on a spoon
- **Kick a soccer ball** while weaving in and out of pylons
- **Skip Rope:** Skip backwards five times

SEEK AND HIDE

Objective: Find Lenny before the space shuttle takes off without him!

The opposite of hide and seek! One person is chosen to be Lenny and must hide from the rest of the group. After 20 seconds, the players set off to try and spot Lenny. When a player finds Lenny, instead of announcing it to the group, he/she quietly hides with him. The game is finished when only one player is left looking for the hiding group.

STARRY SKY TAKEOVER

Objective: To be the last person standing in a night of stars!

4 players are chosen to be stars and spread out across the playing area. The rest of the players stand in a row at the starting line. If you are a star, you must try to tag players as they run past you. When the whistle blows the players run to reach the finish line while trying to avoid the stars. Stars are able to reach out their arms and twist from the waist up but are not able to move their feet. If you are tagged by a Star, you must freeze where you are and become a Star. Whoever is the last person to be turned into a Star, wins!

CHORE CHART

Keep Up with the Space Dogs! Belka and Strelka have a lot of responsibility as famous space travelers. Use this chart to help you keep track of all your responsibilities!
